Since 2015...

An IMPLICIT ICC screen has been performed at:

179,324

Well Child Visits

44,164

Unique Mom-Baby Dyads

46

different sites
in 10 states

The Stats

95%

OF MOMS
attend their child's
Well Child Visits

64%

OF MOMS
screened positive for one
or more ICC risk factors
at their Well Child Visits

93%

OF MOMS
are willing to receive
health advice from
their child's doctor

Mission Statement

The IMPLICIT Network is a family medicine maternal child health learning collaborative focused on improving birth outcomes and promoting the health of women, birthing people, and families through innovative models of care, quality improvement, and professional development for current and future physicians.

Vision

To envision a future where all women/birthing people are fully supported to attain optimal health and wellness for themselves and their babies.
